

What is ISLAM & who are MUSLIMS?

The Arabic word "Islam" means the submission or surrender of one's will to the One and only true God worthy of worship - "Allah", and anyone who does so is termed "Muslim".

The total submission of one's will to Allah represents the essence of worship, which is the basic teaching of Allah's divine religion. Islam is the worship of Allah alone and the avoidance of worship directed towards any creation of Allah.

Islam is not a new religion but the final culmination and fulfillment of the same truth that Allah revealed through all His prophets before Prophet Muhammed ﷺ. For a fifth of the world's population, Islam is not just a personal religion but a complete way of living.

Being the fastest growing around the World, the Muslim population consists of more than a billion people from all races, nationalities and cultures.
